**BUSINESS COLLEGE,**

MECHANIC'S INSTITUTE,

POST STREET, Between Montgomery & Kerney
SAN FRANCISCO,

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inexplicable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

**Pacific Business College**

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the course here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,
VINSONHALER & DE LAGUNA.

**A CARD**

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors.

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support or the community.

### TIME.

Oh, Time, pervading space from earth to Heaven!
Master of death, of man, of al' which art,
Beneath whose tread the very earth is riven,
And worlds from out their orbits reel and start;

Thou, who in ev'ry age and ev'ry clime
Held the round world and man within thy grasp,
Remorseless, changeless, terrible, sublime,
Clutching the new born breath, the dying gasp;

Thou changeless only of all 'neath the sun,
Older than ocean, stars, or space, or man,
Doer of all that's done or is undone,
Yet young as when the spheres their course began;

Eternal youth! oh, ever grand and fair,
Why should we paint thee ghastly, old and grim,
With mien decrepid and with silver hair,
Weary and plodding and with eye-sight dim?

Upon thy brow the golden planets shine,
As fresh as dew, as radiant as the sun;
Round man, enchantment thou dost ever twine,
Beguile him most, when most he is undone.

Art friend or foe, a master or a slave?
Dost on eternity's commands await?
Art priest or victim? Dost o'erleap the grave?
Wilt thou, too, die? Dost share the mortal fate?

Oh God! what light, what answer is there now,
Here in this world, to what the soul demands?
The fettered soul, so fallen, abject, low,
Which spreads to Heaven its wearied, trembling hands.

Each pain is prayer, remorse is mad appeal
To thee for light—for comfort, hope and peace;
What follows Time? Ah! see our spirits kneel
In grovelling sorrows that their woes may cease.

Oh, were Time old, could we but hurl him down,
And cleanse our souls from this poor mortal stain;
Could but make our destenies our own,
And youth's hot tide within us never wane;

What then? Oh mighty Time, Oh Heaven—art dumb?
Must we e'er shudder on the shifting brink
Of awful question—all our beings numb
With fear, lest we in depths unmeasured sink?

Why lives the rose, e'er winter's storms to fade?
Why on the breast in beauty sleeps the child?
O fairer flower of tend'rer fiber made,
To be besmirched, dishonered and defiled.

See, Heaven's own light floats in her sleeping smile;
Oh, fair young mother, gloating on the sight,
Bid Time stand back, his hand her soul will soil,
And touch to life a wand'rer of the night.

### NATURAL HISTORY OF THE BIBLE.

The importance of Natural History in its application to the Bible, and particularly to the Old Testament, cannot be denied. There is a class of reasoners which is averse to subjecting the bible to the investigation of science, and looks with forebodings of evil on all attempts to examine its statements by the light of acknowledged facts. The spirit which actuates such persons, displaying itself in the darker age of the world, dragged Galileo to the dungeons of the Inquisition, and compelled the philosopher to sign a recantation of a system which, at this day, the Christians would accept as undoubtedly true. We regard with no disfavor any attempts to examine the truth, provided they are instituted from honest motives, and conducted with fair arguments. All researches as to the different animals and plants mentioned in the Bible, and now extant on the earth or in the waters, strengthen our faith in the Holy Work. Such animals and plants are described as existing principally in Egypt and Palestine, and their habits and characteristics, as they are found by naturalists of the present day, conform to the descriptions of them given by the sacred writers.

Anfong *savants* the question is much discussed as to the animal spoken of in the Book of Job as the BEHEMOTH. Some have suggested the elephant, others contend that it is an extinct monster like the mastodon or the mammoth. It seems, however, to be the more reasonable opinion that it was the hipporotamus. The words—"he eateth grass as an ox"—"he moveth his tail like a cedar," and his addiction to lying under shady trees in the covert of reeds and fens, unmistakably point to the hippopotamus. The objection made to this theory is that the animal cannot now be found in Lower Egypt, but we know that the Romans brought them from Egypt and North Africa, and bones of the species have been found in Algeria.

The greatest stumbling block to critics and sceptics is the fish tha swallowed Jonah. The word is generally but erronously translated as "whale," while in truth it means either a whale or almost any large marine monster. We know that the white shark is able to swallow a man whole. It is true that the ordinary food of the whale consists of very small fish, but the spermaceti whale has a throat sufficiently capacious to pass an object of the size of a human body, and it is not at all improbable that one of the speicies mentioned might find its way into the Mediteanean Sea. The preservation of Jonah in his floating prison, for the period of three days, was of course miraculous. Another objection made by cavilers is to Samson's tying together three hundred foxes by their tails; the difficulty is disposed of by a learned essayest in this style:

"We may here remark in passing that the 300 foxes that Samson is said to have caught were no doubt jackals. The Hebrew *shual* is the Persian *shaghal* the German *schagal*, and our English *jackal*. Critics have advanced many objections to this transaltion to the Hebrew Judge. Part of the difficulty, however, vanishes if we suppose that jackals are intended: for these animals, which for the most part are gregarious in their habits, might readily have been captured in nets or pitfalls in great numbers; and there is no necessity for concluding that Sampson did all the hunting himself, and had no helpers. With respect to the other difficulty, that two animals united by their tails, instead of running off, would stand still and fight most fiercely, it must be remembered that we are not told the length of the cord that united these animals—a very important consideration—for a cord of merely a couple yards long might have answered the required purpose; jackals being, as was said, gregarious in their habits, we can easily believe that couples thus united would run together, and make the best of their way out of the sight of their captors."

Did our space permit we should like to enter more fully into the subject of the present article. Enough, however, has been said to call the attention of our readers to one of the most interesting branches of study and research open to their investigation.

Lieutenant Colonel Margaret Farieirt and Captain Anita Gill are the female officers at the pass of the river Tebicuairi, where a very respectable force of girls and women is held under arms to dispute the passage of the river by the Allies. This is the teaor of the last advices that came down from Paraguay, and very well informed persons in military matters know they are correct. Brigadier General Eliza Lynch, with the main body of the female army is encamped midway between the pass of the river and a small inland town. On the road to Villa Rica the right wing of her army, under the command of the mother of Captain Herrero, has deployed slightly to the left, so as to hang on the invaders should they effect a crossing of the river, and cut up Mrs. Margaret Farieira and her heroic girls. Relays of girls and women keep consistently arriving at the headquarters of the female Commander-in-Chief. From what we can gather from letters and statements, it would see that the male portion of the Paraguayan army is very reduced, and are occupied in defending the fortress of Humaitia, the positions near Timbo, the encampment at Villa Rica and the fortication at Lambare. The guerrilla portion of the campaign, or what is termed here the "*guerra de recursos* '—is intrusted to the women of Paraguay; and reliable data have been received here that the troops to the North, near the river Tranquera Loreto, are exclusively composed of women.

PROSE is the work-day dress in which truths do secular duty. Poetry is the robe, the royal apparel in which truth asserts its ground; eloquence is truth looking up to heaven. Poetry is the truth flying upward towars God?

### MUSIC.

Music, though not of a very complex and difficult art, is, in truth, a gift of the Author of Nature to the whole human race. Its existence and influence are to be traced in the records of every people from the earliest ages, and are perceptible, at the present time, in every quarter of the globe. It is a part of the benevolent order of providence, that we are capable of receiving from the objects around us, pleasures independent of the immediate purposes for which they have been created. Our eyes do not merely enable us to see external things, so as to avail ourselves of their useful properties; they enable us also to enjoy the delight produced by the perception of *beauty*, a perception which (upon whatever principle it may be explained), is something distinct from any consideration of the mere utility of an object. We could have had the most accurate perceptions to the form and position of everything that constitutes the most beautiful land scape, without receiving any idea of its beauty. We could have beheld the sun setting amid the glowing tints of a summer evening, without thinking of anything beyond the advantage of serene weather; we might have contemplated the glassy expanse of the ocean reflecting the tranquil beams of the moon, without any other feeling than the comfort of a safe and easy navigation; and the varieties of hill and dale, of shad ywoods and luxuriant verdure, might have been pleasant only in the eyes of farmers or graziers. We could, too, have listened to *sounds* with equal indifference to everything beyond the mere information they conveyed to us; and the sighing of the breeze, or the murmuring of the brook, while we learned from nothing of which we could avail ourselves, might have been heard without pleasure. It is evident that the perception of external things, for the mere purpose of making use of them, has no connection with the feelings of their beauty; and that our Creator, therefore, has bestowed on us this additional feeling, for the purpose of augmenting our happines. Had he not had this design, he might have left us without the sense of beauty or deformity. "If God," says Paley, "had wished our misery, he might have made sure of his purpos by forming our senses to be as many sores and pains to us as they are now instruments of gratification and enjoyment; or by placing us among objects so suited to our perceptions, as to have continually offended us, instead of ministering to our refreshment and delight. He might have made, for instance, everything we saw loathsome, everything we touched a sting and every sound a discord."

In place of every sound being a discord, the greatest part of the sounds which we hear are more or less agreeable to us. The infinite variety of sounds produced by the winds and waters,—the cries of animals, the notes of birds—and, above all, the tones of the human voice, all effect us with various kinds and degrees of pleasure; and, in general, it may be said, that it is such sounds as indicate something to be feared and avoided, such as the howling of wild beasts, or the hissing of serpents, that are positively painful to our ears. In this sense, all nature may be said to be full of music; the disagreeable and discordant sounds being (as in artificial music), in such proportion only as to heighten the pleasure derived from those which are agreeable. The human voice is that which pleases us chiefly, and affects us most powerfully. Its natural tones and accents are calculated to penetrate the heart of the listener; and the union of these to artificial speech, in every language; not only produces a melody which pleases the ear, but an effect on the feelings, of which the mere words would be incapable. These natural tones of the voic, either by themselves, or joined to articulate language constitute music in its simplest state; and the pleasures and feelings derived from such music must necessarily have existed in every form of society.

### ASTRONOMY.

Far away from the earth on which we dwell, in the blue ocean of space, thousands of bright orbs, in clustering and configurations of exceeding beauty, invite the upward gaze of man, and tempt him to the examination of the wonderful sphere by which he is surrounded. The starry heavens do not display their glittering constellations in the glare of day, while the rush and turmoil of business incapacitate man for the enjoyment of their solemn grandeur. It is in the stillness of the midnight hour, when all nature is hushed in repose, when the hum of the world's on goings is no longer heard, that the planets roll and shine, and the bright stars trooping through the deep heavens, speak to the willing spirit that would learn their mysterious being. Often have I swept backward six thoused years in imagination, and stood beside our Great Ancestor, as he gazed for the first time on the going down of the sun. What strange sensations must have swept thro' his bewildered mind, as he watched the last departing ray of the sinking orb, unconcious whether he should ever witness its return.

Wrapt in a maze of thought, strange and startling, his eyes linger about the point which the sun had slowly faded from his view. A mysterious darkness hitherto unexperienced, creeps over the face of nature. The beautiful scenes of earth, which through the swift hours of the first wonderful day of his existence, had so charmed his senses, are slowly fading one by one from his dimmed vision. A gloom deeper than that which covers earth, steals across the mind of earth's solitary inhabitant. He raises his inquiring gaze towards heaven, and lo! a silver crescent of light clear and beautiful, hanging in the western sky meets his astonished eye. The young moon charms his untutored vision, and leads him upward to her bright attendants, which are now stealing one by one, from out the deep blue sky. The solitary gazer bows, and wonders, and adores. The hours glide by—the silver moon is gone—the stars are rising—slowly ascending the heights of heaven—and silently sweeping downward in the stillness of night. The first grand revolution to mortal vision is nearly completed. A faint streak of rosy light is seen in the east—it brightens—the stars fade—the planets are extinguished—the eye is fixed in mute astonishment on the growing splendor, till the first rays of the returning sun dart their radiance on the young earth and its solitary inhabitant. To him "the evening and the morning were the first day."

The curiosity excited on this first solemn night—the conciousness that in the heavens God had declared his glory—the eager desire to comprehend the mysteries that dwell in these bright orbs, have clung to the descendants of him who first watched and wondered, through the long lapse of six thousand years. In this boundless field of investigation, human genius has won its most signal victories. Generation after generation has rolled away, age after age has swept silently by, but each has swelled by its contributions the stream of discovery. One barrier after another has give way to the force of intellect—mysterious movements have been unravelled—mighty laws have been revealed—ponderous orbs have been weighed, their reciprocal influences computed, their complex wanderings made clear, until the mind, majestic in its strength, has mounted step by step, up the rocky height of its self-built pyramid, from whose star-crowned summit it looks out on the grandeur of the universe, self-clothed with the presence of a God. With restless energy it rolls back the tide of time, and lives in the configuration of rolling worlds a thousand years ago, or more wonderful it sweeps away the dark curtain from the future, and beholds those celestials scenes which shall greet the vision of generations when a thousand years have rolled away, breaking their noiseless waves on the dim shores of eternity.—*Mitchell's Planetary and Stellar Worlds.*

GENERAL BLAIR AS A FENIAN.—We call the special attention of all Irish-Americans, who vote the Democratic ticket, to the following speech reproduced by the *Bee*:

Francis P. Blair, Jr., Democratic nominee for Vice President, has a funny Fenian record. He was some years ago at a Fenian meeting or banquet in St. Louis, New York or Washington, (we dont remember the place but the circumstance is fresh), and having been called upon he spoke—postprandial perhaps—and said in substance: "Gentlemen, I am with you in the Fenian cause—with you heart and soul—hope to see you successful in your great and patriotic undertaking—I will do all I can to assist you. I will place myself, if needs be, at your head, march with you to Staten Island, oversee your embarkation, will stand on the most elevated bluff of the coast, and as you raise the green emblem over the Stars and Stripes, while your steamers under full headway are turning their prows to the East I will say good-bye, God bless you, and may you be successful in your undertaking. May you lift the British lion out of his boots and wrest from his grasp the emerald gem of the sea; but whether or not you shall succeed in this endeavor, may you each and all remain in Ireland or elsewhere, and never again set foot upon these shores! You are wanted there, and we can get along without you!"

THE following anecdote, the moral of which is sufficiently pointed, is sent to an English paper by a correspohdent: "In a certain town, in the country of Surrey, there is [or was three years ago—a cricket ground nearly surrounded by houses. One fine morning, just after the great Dingley Dell match had been played, the Secretary of the club received a letter from a lady of a certain age,' the proprietor of one of these adjacent houses, declaring that the delicacy had repeatedly been affronted by the sight of gentlemen in every stage of nudity,' putting on their cricketing flannels in the open dressing tent just before her windows. Would the secretary, therefore, she entreated, make arrangements for ridding her of this disgusting spectacle? The secretary of that club is the pink of politeness. He wrote a depreciating and apologetic note to Miss Fielye, and after the dressing tent was placed at the opposite corner of the cricket ground, at least three hundred yards from the ladies windows. Imagine the Secretary's astonishment at receiveing next morning a second letter thanking him for his obviously kind intentions," but regreted that they were of no avail, as she 'could see the gentlemen's legs, with a telescope, just as before."

THE VOYAGE OF LIFE.—Life bears us on like the stream of a mighty river. Our boat glides down the channel, through the playful murmuring of the little brook and the windings of the grassy borders. The trees shed their blossoms over our young heads; the flowers offer themselves to the young hands; we are happy in hope and grasp eagerly at the beauties around us, but the stream hurries us on, and still our hands are empty. The course af our youth and manhood is along a deeper and wider flood, among objects more striking and magnificent; the stream bears us on, and our joys and griefs are alike left behind us. We may be shipwrecked, but we cannot be delayed; whether rough or smooth the river hastens on, till the roar of the ocean is in our ears, and the tossing of the waves is beneath our feet, and the floods are lifted up around us, and we take our leave of earth and its inhabitants, and of future voyage there is no witness save the Infinite and Eternal.

THE HEART'S EASE.—There is a good fable about the King's garden, in which, all at once, the trees and flowers began to wither away—the oak, because it could not yield any fair flowers; the rosebush, because it could bear no fruit; the vine, because it had to cling to the wall, and could cast no cool shadow.

"I am of no use in the world," said the oak.

"I might as well die," said the rose-bush.

"What good can I do?" murmured the vine.

Then the King said, "What makes you so bright and blooming when all the rest are fading?"

"I thought," said the heart's-ease, "you wanted me here, because it was here you planted me; and so I thought I would try to be the best little heart's-ease that it was possible for to be."

MONEY.—Men work for it, beg for it, steal for it, starve for it, and die for it, and all the while from the cradel to the grave, nature and God are thundering in our ears the solemn question, "What shall it profit a man if he gain the whole world and lose his own soul?" The madness for money is the strongest and lowest of passions; it is the insatiate Moloch of the human heart, before whose remorseless altar the finer attributes of humanity are sacraficed. It makes merchandise of all that is sacred in the human affections, and even traffics in the awful solemnities of the eternal.

### LAGER BEER.

I have finally cum tew the conclusin that larger beer as a beverage is not intoxicating.

I have been told so by a geman who said he had drunk it all nite long, just tew try the experiment, and was obliged tu go home entirely sober in the morning. I have seen this same man drunk sixteen glasses, and if he was drunk he was drunk in German and nobody could understand it. It is proper enuff to state that this man kept a lager beer saloon, and could hav no objec it statin what was not strickly thus.

I believed him to the full extent uv mi ability. I never drunk but three glasses uv lager in mi life, and that made mi hed ontwist as tho it wus hung on the end uv a string, but wus told that it wus owin tew mi bile bein out uv place; and I guess it was so, for I never biled over wuss in mi life, than I did when I got home that nite.—Mi wife thot I was goin tew di, and I was fraid that I shouldn't, for it did seem as tho everything I had ever eatin in mi life wus cummin tew the surface; and I do really believe that ef mi wife hadn't pulled off mi boots jest as she did, they would hev cum thunderin up too. O! how sick I wus! 14 years ago, and I can taste it now.

I never hed so much experience in so short a time.

If eny man should tell me lager beer wus not intoxicating, I should believe him, but if he shud tell me that i wuzn't drunk that nite, but mi stummuck wus ont uv order, i shud ask him to state over in words, just how a man felt and ackted when he wuz well sot up.

If i wuzent drunk that nite, i had sum uv the most nateral simptums that a man ever had and kept sober.

In the first place it wuz about 80 rod frum where i dronk the lager beer to mi house, and i wuz thus over 2 hours on the road, and had a hole busted through each one of mi pantaloon neez, and didn't have any hat, and tried to open the door by the belf pull, and hiccupped awfully, and saw everything in the room trying to get on the back side ov me; and in settin down in a chair, i didn't wait long enough to get it ezacly under me, when it was goin round, and i sot down a little to soon and missed the chair about 12 inches, and couldn't get up soon enough to take the next one that cum along; and that aint all; my wife said i wuz a beest, and, as i sed before, I began to spin up things freely.

If lager is not intoxicating, it used i most almighty meau, that i no.

Still i hardly think lager beer is intoxicating, for I hev been told so; and i am probably the only man living who ever drank any when his liver was not plumb.

I don't want to say cnnything agin a harmless temprance beveridge, but if i ever drink any more, it will be with my hands tide behind me, and mi mouth pried open.

I don't think lager beer is intoxicating, but if i remember rite, i think it tastes to me like a grass of sony suds, that a pickle had been put to soak in.

☞ A secret which explains the great difficulty in the advancement of young married men, in the majority of instances, is the fact that mothers-in-law take it for granted that the ties which bind the daughter by the laws of matrimony give them a *carte-blanche* for boarding, clothing, or, in other words, support free, at the husband's expense. Many young men, energetic, persevering, and willing to do, are kept in the back ground in that way. Many harsh words pass between the young married couple when he finds that his hard-earned dollars go into the mouths—yes even the pockets—of the wife's family; and they, brought up in idleness, and then extravagance, helped by his hard earnings. The wife can correct it; but, no! she considers—"at least this one does"—that is a duty of the son-in-law to support a set of indolent relatives, who are fully as able to work as others.

☞ I am thinking of the time, Martha, while sitting by thy side, and shelling beans, I gazed on thee, and felt a wonderous pride. In silence learned we o'er the pan, and neither spoke a word, but the rattling of the beans, Martha, was all the sound we heard. Thy auburn curls hung down, Martha, and kissed thy lily cheek, thy azure eyes, half filled with tears, bespoke a spirit meek. To be so charmed as I was then, had ne'er before occurred, when the rattling of the beans, Martha, was all the sound we heard. I thought it was not wrong, Martha, so leaning o'er the dish, as you snatched up a handful o' beans, I snatched a nectar kiss. And suddenly there came a shower, as I neither saw nor stirred: but the rattling of the beans, Martha, was all the sound I heard.

☞ In Vermont, on a certain mornful occasion, a farmer who who was sympathizing with his neighbor Jones on the death of his son said—"You should remember, Mr. Jones, there is no loss without some gain! John, you remember, was always a monstrous eater!" "I know that" responded the bereaved parent—"but to think that he was laid up with rheumatism all winter, and dies *just in haying time!* is pretty tough, neighbor Jenkins, pretty tough!"

☞ An old gentleman travelling on a western railroad, had two ladies, sisters, for companions. The younger, an invalid, soon fell asleep, and the old gentleman expressed his regret at seeing so charming a young lady in ill health. "Ah! yes, indeed," sighed the elder sister, "a disease of the heart." "Dear me, was the sympathetic response, "at her age! Ossification, perhaps?" "Oh, no, sir; an ossifier—a lieutenant."

☞ In the trial of General Cole for the killing, of Hiscock, at Albany, New York, on the ground of adultry with his wife, the counsel for the accused makes the remarkable statement that "within the last two hundred years no man has been punished by any Court of Justice either in this country or in England, for shooting the seducer of his wife, his daughter, his sister, when that motive, and that alone, has prompted the fatal blow."

☞ An enterprising undertaker sent the following excessively cool note to a sick man: "Dear Sir—having positive proof that you are rapidly approaching Death's gate, I have thought it not imprudent to call your attention to the inclosed advertisement of my abundant stock of ready-made coffins, and make the suggestion that you signify to your friends a desire for the purchase of your burial outfit at my establishment."

☞ A facetious gentleman of Williamsburg, Mass., dining upon a tough fowl in a Boston hotel, asked the landlady where the fowl came from. She replied, "from Williamsburg." "Impossible," said the gentleman, "for the town hasn't been incorporated over forty years."

☞ "I am afraid you don't like babies when they cry," said a matron to a gentleman as she tried to soothe the darling in her arms. "Oh, yes," said he, "I like them best when they cry because I've always observed that then they are invariably carried out of the room.

The *Banner of Progress* furnishes an amazing account of the performances of an "inspirational piano player," whose "trembling hands flew over the keys like aspen leves producing hoarse discords, like muttering thunders rolling along rugged steeps."

☞ A Cynical journalist says the reason so many marriages occur immediately after a war, is that bachelors become so accustomed to strife that they learn to like it, and after the return of peace, they enlist in matrimony as the next thing to war.

☞ A Missouri editor remarks that while he makes no pretentions as a "skatist," he believes he can fall down on the ice and get up without being told as often as any other man.

"It is well to leave something for those who come after us," as a man said who drew a barrel in the way of a constable who was chasing him.

☞ Eve is said to be the only woman who never threatened to go and live with her mother, and Adam the first man who ever went to housekeeping without first trying to board with his mother-in-law.

☞ "I say, boy, stop that ox." "I haven't got any stopper." "Well, head him, then." "He's already headed, sir." "Confound your impertinence, turn him." "He's right side out now, sir." "Speak to him, you young rascal." "Good morning, Mr. Ox."

☞ "O, for a thousand tongues," as an urchin remarked when inside a molasses hogshead.

☞ Why is my foot like a stable? Because there's a corn bin there.

☞ Bad taste—Pretty young girls kissing widowers' children.

☞ The perfume of the world—The centre of the earth.

### DIFFICULTIES OF IMPUDENCE.

—Many a man, being extremely sensible that modesty is prejudicial to him in making his fortune, has resolved to be impudent, and put a bold face on the matter; but it is observeable that such people have seldom succeeded in the attempt, but have been obliged to relapse into their prmative modesty. Nothing carries a man through the world like a genuine, natural impudence. Its counterfeit is good for nothing; and can never support itself. In any other attempt, what ever taints a man commits and is sensible of, he is so much nearer his end. But when he endeavors at impudence, if he ever failed in the attempt, the rememberance of that failure will make him blush, and will infallibly disconcert him; after which every blush is a cause for new blushes, till he be found out to be an arrant cheat and a vain pretender to impudence.—*Howe.*

UNDER the attractive captien of "Your husband's dead, get another," *The Springfield* (Mass.) *Independent* publishes the following letter, which fell into the hands of the editor: "Dear Daughter—I hope you are well as this leaves me and your son at presents. i rite the few lines to inform you that your husband is no moor he took his last breth yesterday and is going to be buried to-morrow dear daughter i know that you have a will and that you can work so perhaps you had better stop in Sheffield and you can get married again i hope you will do well and your son can stop with us I will write to you agen when all is over so no more at present from your affectionate Mother."

A DETROIT paper tells a story of honest industry insufficiently rewarded. It is of a Cincinnati editor, who, it says, makes one suit answer for the changes of the year. He gets a suit of thick cloth as cold weather comes on, and by the time hot weather arrives it is worn sufficently thin to serve for thin clothes. When he wears them out, then he don't wear them out any more—that is to say, he wears them out until they are so much worn out that he had rather not go out than wear them out any more—than he gets another suit.

THE "Zephriana" is the name of the last issued hoop-skirt.—It is said to be a marvel of lightness, fleetness, flexiblity and tenacity; and one shop-keeper publicly announces that it makes ladies feel as if they had nothing on. An exchange says, we venture the assertion that the ladies, at least when on the street, don't care to feel just that way.

A YOUNG man, who recently fell in love with a very beautiful young lady, says that when he ascertained last evening that she reciprocated his passion, he felt as though he was on the roof of a meeting house and every shingle was a jews-harp.

WHEN Charles Dickens arrived home, last month, from America, all the farmers turned out on the road to greet him, and all the houses for miles on the way were dressed with flags.—The village bell-ringers rang a peal of welcome home again to the great author.

THE Sacramento *Reporter* says the Presidency is due Horatio Seymour because of his services during the war! It also declares the Democratic party is no ways responsible for the war, or debt! Seymour being a Democrat, one or the other of the above claims is as illogical as unrrue.

THE *Pacific* says Seymour and Blair can be elected only by hard work and by an unforseen juncture of affairs. The Republicans are pleased with the nominations, because they think them weak. Let them not count on too easy a victory. Grant and Colfax can be elected only by prudence, perseverance and enthusiasm.

AT the last masked ball of the Grand Opera, Paris, a domino said to a gentleman, "Do try to squeeze into my box." "I should like to squeeze into your heart, Madam." ## LETTER FROM MEADOW LAKE.

MEADOW LAKE, JULY 23d, 1868.

EDITOR ENQUIRER:—You are probably aware that there was once a flourishing city called Meadow Lake, which is now not much more than a one-horse village. Many of the readers of your valuable journal have invested considerable sums of money in the mines of Excelsior District, and thinking that the following intelligence might be of interest to them, I have concluded to forward it to you for publication: The road from Cisco is very bad, and impassible for teams, dangerous for animals, and laborious for pedestrians; the snow being soft and rotten, and the waters of the Yuba high. The snow was not as deep last winter, as the winter before, but has lasted considerable later in the season, and ranges at present from four to six feet in depth, but melting away very rapidly, and will probably be all off early in August. The first snow storm occured about the 4th, or 5th, of October 1867, and the ground has not been free from snow since—ten months of glaring whiteness is enough to give one the horrors. About one hundred people wintered here. The population is rapidly increasing, several old residents have returned satisfied that prospects are better here than elsewhere. Business is not very active though the people are in the best of spirits.

### The Town.

The town boasts the Excelsior Hotel, conducted by Mrs. Noyse, and an other hotel just being opened by Mr. Sheuster, two restaurants, four stores, six saloons, a post office, two breweries and a milkman. The population consists of about one hundred and fifty men, women and children, three horses, four cows, four dozen chickens, forty dogs, one pig, and a China man.

### The Mines.

The Enterprise Furnace and Mill is ready for operation; the Trustees are expected here daily and will appoint a Superintendent, and take into consideration other matters preparatory to a season's operations, they have at the mill two month's run of good ore, but the ability of the furnace to work it thoroughly or even profitably is, as yet, uncertain.

The U. S. Grant Co., have struck a fine looking ledge in their lower tunnel, at a depth of about 80 feet; the trustees are expected from San Francisco in a few days, to decide regarding the erection of a mill.

The Kentucky Tunnel has also tapped the ledge 100 feet deep, 8 feet wide, prospects flattering. Their annual meeting took place at Cisco, on the 11th, instant. The following are the Trustees elect., Mr. Jamison, of Reno, Mr. Rafael, of Cisco, and Mr. Van Wyke, of San Francisco—a good board. The plans for the future are unknown.

The Gold Run Company, have levied an assessment sufficient to pay all indebtedness taxes, etc., etc., their mine is wellprospected, by a tunnel running on the ledge 300 feet, and is not surpassed in richness by any mine in the District. The Trustees have determinedto suspend work until some process is put into operation that will work the ore thoroughly.

The Mohawk and Montreal Co., have a fine body of decomposed free-gold ore, at a depth of 230 feet, and the prospects throughout the mine are very flattering. They are putting a new 48 fine boiler in the mill, and another five stamp battery will be ready to start in a few days.

The Empire Company will resume work this week, their shaft is 35 feet deep, the ledge 5 feet wide and very rich in free gold and sulphrets, free gold can be seen in the pure sulphrets as taken from the mine. they have out about 75 tons of which they will work 30 tons at the Enterprise soon.

The Green Emigrant Co., are at work day and night, their shaft is 65 feet deep, the ledge 5 feet wide, the rock white, free gold and some sulphrets—paid last season from $26 to $31 per ton, and the indications are better now than ever.

Many other mines in the District are just as good as those above mentioned, some of which have been located and partly prospected others are subject to lo ation.

There are five mills in the District which have proven that the ordinary process will not work this ore; therefore, science and capital must combine with the energy and muscle of this community before we can prove to the outside world that this is now the richest mining District in the State of California—let those who doubt it come and satisfy themselves.

SNOW BALL.

GOLD RUN.—A correspondent at Gold Run kindly furnishes us the following interesting items:

Moore, Taylor & Co., after a run of twenty day's, cleaned up quite a handsome sum.

O. Harknes of Canyon Creek, after a twenty day's run cleaned up between $7000 and $8000, this is the largest clean up ever made in this District, in the same length of time.

Abeel, Dunn & Co., after running ten days cleaned up at the rate of $50 per day.

There are quite anumber of claims that have stopped work for the present season, on account of their ground being nearly worked out.

Carr, Harriman & Co., cleaned up after a run of twenty days the nice little sum of $2,800, this claim is under the supervision of J. G. Brown a worthy and efficient foreman, and at one time a Justice of the Peace in Dutch Flat.

There is to be an addition built on the Public School house. During the time it is being built there will be a vacation. Meanewhile, its pedant is wandering amid the rocky clifts, the snow-clad peaks, beside the crystal rills, through woody dells, and amid the sequestered and somber shades of the pine groves, on "Old Sierra's summits."

FOR meritorious conduct and faithfulness in study, during the past month, the following names of members of the Dutch Flat Public School have been placed on the Roll of Honor:

| Alice Abeel, | Ella Bellows, |
| Orange Tillotson, | Mary Lee, |
| Eva Sheridan, | Alice Barner, |
| Lillie McCulloch, | Emma Anderson, |
| Georgia McCulloch, | Regana Rogers, |
| Dovie Redstone, | Ada Hoskins, |

| Martha Knott, | Willie Baker, |
| Mary Rogers, | Charley Schubert. |

A WORTHY knight of crispin, of the Teutonic persuasion, residing in this place, having decided to retire from business, took down his sign, a mammoth boot, a few nights since, and dressed it in mourning and placed it upon a bier and started out with a few friends to bury it. A short distance from the shop, the party became dissatisfied with the bier they were carrying, and went in search of another, (lager beer), the article was soon found, and the pall bearers foundered, and the result was that the beer instead of the corpse was stowed away.

THE STATE FAIR.—The indications at present are, that the Fair this fall will surpass any similar exhibition on the coast. The splendid crops of the valleys bespeak a full display of fruits, flowers, and cerals, besides mechanical interests will be better represented this season than formerly. A letter from the Secretary I. N. Hoag, informs us that the managers are putting forth every exertion. All classes are beginning to learn the benefit of fairs, and year by year the exhibitions improve.

THE DASHAWAYS.—On last Tuesday evening the Dashaways met pursuant to notice, at the theatre. Quite a large crowd was in attendance and after the business of the evening was disposed of Rev. J. A. Benton, of San Francisco, made a few well-timed and appropriate remarks to the assemblage. Quite a number of new recruits were added to the roll.

SODA WATER.—John Burnett, the careful and efficient delivery clerk, of that enterprising gentleman, J. A. Farrell, of the Grass Valley Soda Works, has our thanks for a very liberal supply of that delicious beverage, the name of which heads this paragraph. Business men who remember the printer always succeed.

"THE HEATED TERM."—From the cities of the plains, and the towns of the valleys of the foothills, from the Atlantic sea board, from the the plains of the West comes to us murmurings of distress. Heat, through all degrees of comparison from a positive to an extreme superlative consumes them. Sirius sends down his rays from the brassy skies, and consumes the last faint leaf of green, and absorbs from the earth's surface the last drop of moisture. The places which a few weeks ago were all life and beauty, are now dry and parched. The fragrant flowers which but a few weeks since bloomed in all their loveliness, are now faded and fallen, and mixed with the dust and ashes of the earth. The beautiful birds have winged their way to other regions, and now no winged songster is heard save the mosquito, who helps to make the sultry nights more disagreeable. With us it is different, though the days are excessively hot and oppressive, yet we can be thankful, for the nights are cool and delicious, enabling us to enjoy refreshing slumber.

To establish a monthly Magazine, after the style of the Eastern literary publications of that character, was one of the earliest endevors of the enterprising publishers in this State. We find in an old pile of musty magazines, before us, no less than eight (and we presume that these do not comprise more than half the number that have been started,) different publications which have attempted to fill this void, and yet not one of them is living to-day; some flourished for two or three years, and some only for a few months, but all, alike, have passed away. In the face of these facts it requires a considerable nerve to enter into such an enterprise, as well as some money. Messers. A. Roman & Co., have undertaken the task. The *Overland Monthly*, the best by far, of any literary publication ever produced on the Pacific coast, is now before the public, a candidate for their favor and patronage, and it is a duty of the citizens of this State to support it. Thousands of dollars are annually sent East for publications no better, and in many cases far inferior to the magazine mentioned. "Patronize home industry," has long been a motto of the American people. Patronize your local news paper, and your home magazines if you would follow the motto. This new candidate is in your hands, citizens of California, you can build it up or reject it, as you may desire, but we sincerily hope that you will elect to support it and make it an ornament and an honor to our State.

AN APPOINTMENT FIT TO BE MADE.—Gen. Denver says, the first question the President now asks when urged to make an appointment is, will the Senate confirm it. This accounts not only for his giving the name of Coey in place of Soule as collector in San Francisco, but also that of Sherman Day as U. S. Surveyor General of California, in place of Lauren Upson. We know no good reason for the removal of Soule or Upson, but we know many good reasons for the appointment of Mr. Day. He is an honest man, every inch of him. He is abundantly capable, not only by nature, but by careful culture and by a long and varied experience in affairs abroad and at home. He also has this advantage over all his predecessors in the office which he will hold. He is a practical mining engineer of large and varied experience; no man on the coast has traveled more in pursuit of one or the other of these occupations. He was for several years the engineer of the New Almaden mines. He is, perhaps better fitted than any other man to draw the line between agricultural and mineral laws, uplands, swamp and overflowed lands. His profession has eminently fitted him to decide for himself the vexed questions constantly arrising between claimants and disputants in land matters, especially between miners and farmers, and miners and railroad companies. It is really a great pleasure to herald the nomination and confirmation of a man in every respect so worthy.

DIFFERENCES OF TASTE.—It is strange to notice what a difference of opinion exists in regard to the choicest viands and the most tooth some morsels. That there are "many men of many minds," is abundantly proven by the experience of every life, whether passed here or elsewhere in the mountains, or upon the plains—in the narrow circle of the village, by the sea shore, or amid the crowded thoroughfares of a metropolis; but to appreciate the endless differences of taste in the article of diet among the races of humanity, extensive travel, and close observation is requisite. Men naturally differ in dress, religion, social habits, cleanliness, and government—in morals, philosophy, intelligence, and politics. Such variances we would reasonably expect as the legitimate result of a diversity of education, but in matters of food, one might suppose that the appetites and instincts nature would, as with the dumb brutes, lead to the same or similar preferences and dislikes. This, however, does not seem to be the case, is true that some kinds of food is very generally used, but there is no kind that we can call to mind that is universally employed. In Paris, horse flesh is sold by lincensed victualers, and is the food of thousands, and snails and bull-frogs are esteemed as the greatest of luxuries in all parts of France, and in fact everywhere on the continent of Europe frogs *fricace* are considered delicions. In the club rooms of London, and in our own cities, steaks, so rare as to be almost *raw*, dripping with blood, are dainty morsels among epicures. In Germany *caviar* and Limberger cheese, emitting odors intolerable to common olfactories, are served up as a favorite part of the dessert, and eaten with a relish, notwithstanding the fact, that to the untutored palate the first taste would vomit its owner. Among the Esquimaux, and other tribes that inhabit the Artic regions, the oil and raw blubber of a whale make a choice banquet. In China, birds nests, purchased at an enormous cost, regale the wealthiest classes, while rats are cooked for the tables of the poorer people, and none of them hesitate to throw themselves on the outside of a savory slice of dog. Among the Tartars, the milk of asses is the accompaniment of every meal. Grubs, earth-worms, and lice are eaten with great relish by the Digger Indians of this State. In Africa lizards and snakes are eagerly devoured by the natives. At one time, in the Sandwich Islands, and in other portions of the world at the present time, roast baby is considered a superior dish, and even a missionary or a tough old marine is not sneezed at. In Central America, a species of lizard know as guana, is highly prized, and a young monkey is regarded as no ordinary luxury; and the Indians on the Plains regard roast grasshoppers as just the thing to make a nice meal on. At any rate we give our readers the benefit of this varied bill of fare; if you cannot make a sumptuous repast, we are not to blame. "You pays your monish, you takes your shoice."

SCREWED BOOTS.—We would call attention to the advertisement of F. A. Seiberlich, San Francisco, of a superior article of Screwed Boots which for cheapness and durability find no equal. Give him a call.

MAJOR STEARMAN has our thanks for a pamphlet, by Prof. A. Layres, entitled, "A Defense of the Reconstruction Acts of Congress, and a Critical Review, of the Inaugural of H. H. Haight, Governor of California.

THE *State Capital Reporter*, and the *Occident*, have entered upon new volumes. They are good papers and deserving of support. Success to your barks.

**DOZIER Metallurgic Company,** location of works, Benton, Mono county, California. Notice is hereby given, that at a meeting of the Board of Trustees, held on the 17th day of July, 1868, an assessment of two and one half-per cent. on the capital stock of said company, was levied, payable immediately in U. S. Gold coin, to the Secretary at his office in the Banking House of W. & P. Nichols, Dutch Flat. Any stock upon which said assessment shall remain unpaid on the 17th day of August, 1868, shall be deemed delinquent, and will be duly advertised for sale at public auction, and unless payment shall be made before, will be sold on the 31st day of August, 1868, to pay said delinquent assessment, together with costs of advertising and expenses of sale.

HOTELS AND RESTAURANTS.

## DUTCH FLAT HOTEL,

MAIN STREET, DUTCH FLAT.

**CHAS. SEFFENS.....Proprietor.**

**THIS HOUSE BEING NOW FUL**ly completed and arranged in all its appointments presents greater inducements to transient as well as permanent customers than any other establishment of the kind in the mountains. The proprietor having been in the business for a number of years, flatters himself that he is sufficiently known as a caterer to public taste to warrant their support.

**LARGE AIRY ROOMS,**

with clean bed linen, well ventilated are requisites that should not be dispensed with but which are ALWAYS found at this house.

## EAGLE PIANO-FORTE CO.

950 BROADWAY, NEW YORK.

**The above company is composed** of a number of practical and experienced Piano-Forte builders, sustained by abundant Capital, and whose especial object is to manufacture Piano-Fortes embracing.

**Every modern improvement of**

**REAL MERIT.**

While other manufacturers embody their own special improvements in their instruments, they are deterred from using, the perhaps equally valuable improvements of others in regard to other portions of the instrument, by the often exorbitant royalties or fees demanded by the Patentees for the privilege, so that although we have frequently announcements of Pianos embracing every modern improvement, there are really none at present that do so. It is the determination of the EAGLE PIANO-FORTE CO., to disregard all considerations of expense in procuring the rights to use any and every improvement which has met the approval, and may be recommended to them by the leading Pianists of the day, such as the Abbe Listz, Thalberg, Gottschalk and others.

This Company has boldly embarked with the above purpose, confident that the American people are prepared to approve, appreciate, and sustain their effort to produce,

**The most complete and best Piano-**

**FORTE IN THE WORLD.**

While the expense of manufacturing will necessarily be increase by the purchase of these rights and privileges, it will not be permitted to increase the retail price of any of their instruments. The same style and finish of instruments will be sold as cheaply as those of any other good manufacturer.

The Company being new is disposed to expend its exertions more for establishing its reputation and the reputation of its work than for present profits, confident that this course will be more profitablb in the end.

Every department of the manufacturing being under the hands of a practical workman, who is at the same time a member of the Company and interrested in its success and reputation, insures an exactness with regard to the character of the work that cannot otherwise be obtained.

The best recommendation for these Pianos lies in the fact that they are rapidly finding their way into the parlors of all the leading professional and amateur Pianists of the day in preference to all others.

Confident that their instruments will be their own best recommendation, the Eagle Piano-Forte Co., are anxious to effect the early introduction of one or more of their Pianos into every community, and to this end they offer

**Extraordinary inducements to**

**MUSIC TEACHERS AND OTHERS**

Who may be able to aid them in their effort.

School Committees and others desiring instruments for Public Institutions will be offered special inducements.

Ladies and others having charge of Charitable Fairs, Festivals, &c., will be offered special inducements together with suggestions by which the proceeds of their benevolent efforts may be greatly increased; all such are especially invited to correspond with us.

Every instrument manufactured by the Eagle Piano-Forte Co., is made out of the very best and most suitable material selected from all parts of the world, most thoroughly seasoned and prepared, and warranted, in every respect for five years, as to material and workmanship, and to stand in any climate.

Orders promptly and carefully filled from the the large assortment always on hand.

## TO THE CHILDREN AND YOUTH OF DUTCH FLAT.

DEAR YOUNG FRIENDS:—The *Sea* of life, as seen in youth, is beautiful as the silvery light of the full-faced moon; serene as the mountain sun-set, and grand as the broad bosom of the mighty Pacific. As yet, experience has read you no lesson of sorrow, marked no rocks or shoals upon that chart; neither has disappointment darkened your sky with the threatening storm cloud of despair. You are looking beyond the days of minority and discipline, in which you perhaps think the wheels of time move slowly, and paternal restraint has become irksome; looking with eager longing out upon that opening future, that stretches far away; in which, life, in fancy and imagination, has been many times lived over, in visions of the bright future; impatient for the time, when, loosed from present moorings, you spread sail to the breeze, and join the fleet that has gone before you. Many have been shipwrecked and lost their all—character, happiness, and Heaven.—Others have barely reached the port, with the loss of sail and rigging in the storms and disasters of this life. You have yet to learn by experience, perhaps, that such may be your lot.—To guard you from such danger, mark: The bright morning reflects its own holy light and joy to you, but underneath *may* be seen the dark cloud, with its silvery lining, of danger and disappointment. The placid waters, like the bosom of the mountain lakes, may hide the craggy rock, that steals the death march on the unsuspecting mariner. The early breeze laden with sweet perfume, may fan to madness the angry waves, and overwhelm with fearful destruction the proudest ship. Death is written on every page of life's book; a thunderbolt is hidden in every cloud, and only needs a poorer neighbor that floats beside it, to draw it forth, and in its act of benevolence, may call an unprepared and unsuspected soul in the presence of its God. As well the soft and gentle rain that whispers life and beauty to the thirsty desert flower, and the zephyrs that gently play with the silken locks on the heated brow, may bring and sow the miasma of death. Life in the young is beautiful—beautiful in its buddings of promise, encased in its leaves of green, struggling to burst its prison bonds, and reveal to the light of day the fragrant bloom of youthful beauty, upturning its lovely face to receive the the kiss of light from the sun's diviner rays; beautiful in its developed aspirations, and noble deeds of holy emotions, moral excellencies and final triumphs. To one who has left behind youth and its opportunities, fancies, and imaginations, and is now buffeting with the stern realities of life, its lessons learned and its blessings enjoyed; it is profitable if not pleasant to halt and retrospect the past. To the wise and good life looks more beautiful than when in youth it invested the beholder with its own peculiar hopes and pursuits; to such will come the almost unconcious sigh, the unbidden tear, and sad acknowledgement that youth is an ignorant voyager on the sea of life, and little understands the rocks and quicksands, storms and shipwrecks he is to encounter.

Dear young friends may I give you one word of friendly advice. Take the Chart of God, "His blessed Bible." It is prepared by Him to direct you across the sea of life. "There is the "compass," that points to the "north star" of truth, the "port of Heaven." It points out the rocks of sin upon which so many make shipwrecks of faith and good conscience, and are drowned in perdition. It marks out to you the channels of grace and blessings that are wafting the good toward the haven of rest. It is a "quadrant" by which you may at all times and places take "your bearings" and know just where you are and what progress you are making toward Heaven. The "star of hope" ever shines there. The whirlpools and eddies, quicksands and storms, may all be avoided and your life will end in peace, success and final glory.

## ASIATIC CHOLERA.

**The strongest proof of intrinsic MERIT.**

DEAR SIRS:—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The cholera appeared here soon after we received it. We resorted at once to the Pain Killer, using as directed for cholera. A list was kept of all to whom the Pain Killer was given, and our native attendents assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very indifferently received.

Believe me, dear sirs, gratefully and faithfully yours. J. M. JOHNSON,

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sickand troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natu result of such a cause. Weare personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

OF DEATHS, that annually occur, are caused by Preventable Diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills, (as the case may require,) were administered when pain or uneasiness or when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. PAIN, no matter from what cause, is almost instantly cured by the Ready Relief. In cases of Cholera, Diarrhœa, Cramps, Spasms, Bilious Cholic, in fact all Pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Arms, Rheumatism, Neuralgia, Fever and Ague, Headache, Toothache, &c., will in a FEW MINUTES yield to the soothing influence of the Ready Relief.

Sudden Colds, Coughs, Influenza, Diptheria, Hoarseness, Sore Throat, Chills, Fever and Ague, Mercurial Pains, Scarlet Fever, &c., &c., take from four to six of Radway's Pills, and also a teaspoonful of the Ready Relief in a glass of warm water, sweetened with sugar or honey; bathe the throat, head and chest with Ready Relief, (if Ague or Intermittent Fever, bathe the spine also,) in the morning you will be cured.

**How the Ready Relief Acts.**

In a few minutes the patient will feel a slight tingling irritation, and the skin becomes reddened; if there is much distress in the stomach, the Relief will assist Nature in removing the offending cause,—a general warmth is felt throughout the entire body, and its diffusive stimulative properties rapidly courses through every vein and tissue of the system, arousing the slothful and partially paralyzed glands and organs to renewed and healthy action, perspiration follows, and the surface of the body feels increased heat. The sickness at stomach, colds, chills, headache, oppressed breathing, the soreness of the throat, and all pains, either internally or externally, rapidly subside, and the patient falls into a tranquil sleep, awakes refreshed, invigorated, cured.

It will be found that in using the Relief externally, either on the spine or across the kidneys, or over the stomach and bowels, that for several days a pleasing warmth will be felt, showing the length of time it continues its influence over the diseased parts.

☞ Price of R. R. R. 50 cents per bottle. Sold by Druggists and Country Merchants, Grocers, &c.

**RADWAY & CO.,**
87 Maiden Lane, New York.

**TYPHOID FEVER.**

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one teaspoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times through the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.

If seized with fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Releif. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking the Releif repeatedly, every four hours, also the Pills. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and quieting; it is sure to break up the Fever and to neutralize the poison.

Let this treatement be followed and thousands will be saved. The same treatment will be followed in Fever and Ague, Yellow Fever, Ship Fever, Billious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt, the Relief should be used.

Relief 50 cts.; Pills 25 cts. Sold by all Druggists.

**ESSENCE OF JAMAICA GINGER.**

**THIS valuable preparation,** containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

It is not surprising that you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

**NEWELL'S**
**PULMONARY SYRUP**

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

**NEWELL'S**
**PULMONARY SYRUP**

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

**NEWELL'S**
**PULMONARY SYRUP**

has cured thousands and it will cu YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all delete rious drugs, and perfectly harmless under all circumstances.

## GRAEFENBERG

**UTERINE CATHOLICON**

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

## ALL OVER THE WORLD

People of sense and udgment have learned to use

**PLANTATION BITTERS.**

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, etc., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old are delighted with its effects.

The first trial always has a marked effect.

No change in diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France for the enormous price of its weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, etc.

CASCARILLA BARK.—For Diarrhœa, Colic and diseases of the stomach and bowels.

DANDELION.—For Inflammation of the Loins, and Dropsical Affections.

CAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism etc.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-budge, orange, charaway, coriander, snake-root, etc.

## S.T-1860-X.

Another wonderful ingredient, of Spanish origin imparting beauty to the complexion and brilliancy to the mind, is yet unknown too the commerce of the world, and we with ehld its name for the present.

With this recipe before the community, and evidence of effects meeting them on all sides, the success of DR. DRAKE stands founded upon the rock of truth. Almost every family has some cases of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

## MEXICAN MUSTANG LINIMENT

The merits of this Liniment are well known. Its effects are instantaneous, soothing and wonderful.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLCWING:

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, etc., and all say it acts like magic."

J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

ED. SEELY.

Gloncester, Mass., Aug. 1, 1855.

Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Sold by all Druggists and Stores, at 25 and 50 cents and $1.

## MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES. EAR ACHE,
SPRAINS, SWELLINGS,
FRESH CUTS OR WOUNDS,

Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Sold by all Druggists and Stores in every town and mining camp on Pacific coast.

## OUR CHILDHOOD.

'Tis sad, yet sweet, to listen
To the soft wind's gentle swell,
And think we hear the music
Our childhood knew so well;
To gaze out on the even
And the boundless fields of air,
And feel again our boyish wish
To roam like angels there.

There are many dreams of gladness
That cling around the past—
And from the tomb of feeling
Old thoughts come throbbing fast;
The forms we loved so dearly,
In the happy days now gone,
The beautiful and the lovely,
So fair to look upon,

Those bright and lovely maidens
Who seemed so formed for bliss,
Too glorious and too heavenly
For such a world as this!
Whose soft dark eyes seemed swimming
In a sea of liquid light,
And whose locks of gold were streaming
O'er brows so sunny.

Whose smiles were like the sunshine
In the spring-time of the year—
Like changeful gleams of April,
They followed every tear;
They have passed—like hope—away;
All their loveliness is fled—
Oh! many a heart is mourning
That they are with the dead.

And yet, the thought is saddening
To muse on such as they,
And feel that all the beautiful
Are passing away!
That the fair ones whom we love
Grow to each loving breast,
Like the tendrils of the clinging vine,
Then perish where they rest.

## THE SCIENCE OF HEALTH!

**Every Man His Own Physician.**

**HOLLOWAY'S PILLS,**

AND

**HOLLOWAY'S OINTMENT!**

**Disorders of the Stomach, Liver and Bowels.**

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, fiental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

**Erysipelas and Salt Rheum,**

Are two of the most common and virulent disorders prevafent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

**Bad Legs, Old Sores, and Ulcers.**

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

**Eruptions on the Skin.**

Arising from a bad state of the blood of chronic biseases, are eradicated, and a clear and transparent surface regained by the restorative actton of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

**Female Complaints.**

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

**Piles and Fistula.**

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

**Both the Ointment and Pills should be used in the following cases:**

| | | |
|---|---|---|
| Bunions, | Piles, | Sore Legs, |
| Burns, | Rheumatism, | Sore Breasts, |
| Chilblains, | Ringworm, | Sore Heads, |
| Fistula, | Salt Rheum, | Sore Throats, |
| Gout | Scalds, | Sprains, |
| Stiff Joints, | Tetter, | Ulcers. |
| Lumbago, | Skin Diseases | Venereal Sores, |
| Sores of all kinds, | Mercurial Eruptions, | |
| Swelled Glands, | Wounds of all kinds. | |

**CAUTION.**—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

[DR. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

**THIS CELEBRATED INSTITUTE**

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

**Do not be satisfied with partial cures**

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

**Private Medical Institute,**

**Seminal Weakness or Spermatorrhœa.**

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable falling of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no remedy except in proper and skillful treatment. Consult them, at once, a physician whose long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

**Important to Females.**

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. ## FRENCH MEDICAL OFFICE

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory, and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

**Female Monthly Pills.**

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

## PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

**DR. W. K. DOHERTY'S**

**Private Medical and Surgical Institute,**

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

*Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.*

**TO THE AFFLICTED.**

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implsit secrecy.

**To Females.**

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, s, palpitation of the heart, irritability, nervousness extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation

**To Correspondents.**

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, and confidential.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

Address,
W. K. DOHERTY, M. D.,
San Francisco, California.

**Spermatorrhœa,**

DR. DOHERTY has just published an important pamphlet embodying his own views and experiences in relation to Impotence or Virility, being a short treatise on Spermatorrhœ or Seminal Weakness, Nervous and Physical Debility consequent on this affection, and other diseases of the Sexual Organs.

This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage.
